LEARNERS TODAY, LEADERS TOMORROW

A CONVERSATION WITH

Amarjit (AJ) Kaur

**School Board Trustee
John Swett Unified School District**

What inspired you to run for the school board?

"I believe that educators should be on school boards as we are the "boots on the ground." Knowing the day-to-day needs of students and educators, coupled with my leadership experience, I will bring a perspective that will benefit the school board and the entire school community. There continue to be disparities in social and racial equity within our education systems, for staff and students. During this era of an awakening among the American people about the ongoing systemic oppression, there is an opportunity to begin restructuring and rebuilding more equitable education systems that serve all student needs. It is important to me to be part of creating that change and being an advocate for our underserved students."
